

## Non Statutory Qualifications

We provide training, mentoring and assessment for all WAMITAB non statutory qualifications. These qualifications promote best practice by giving employees the skills required to perform their roles safely and effectively.

### Background

These qualifications are aimed at public and private waste, recycling, cleansing and facilities management, property and caretaking sectors. They are suitable for a range of roles from operatives to team leaders.

### What we can do

These qualifications are all assessed in the workplace. We will appoint a dedicated assessor to mentor you through the units in your particular qualification. You as a learner will

be required to build a portfolio of evidence, much of which is done during your normal working activities. This is then assessed against the WAMITAB standards.

### Benefits to you

- Understand and comply with facility working practices
- Improved productivity in the workplace
- Improved awareness of health and safety
- Undertaken at site – no disruption through lengthy offsite training days
- Nationally recognised qualification
- Provides basis to move on to higher level training and career development.
